

Resume

Name:- Mrunali Patil

Contact:- 9699574004

E-Mail :- patilmrunali863@gmail.com

3 Years of experience in **Manual** and **Automation Testing** having an experience in Functional, Globalization, UI Testing, API Testing, Webservice Testing using POSTMAN and Automation Testing (Selenium Webdriver with JAVA).

PROFESSIONAL SYNOPSIS

- Proactive and self-starter, individual contributor on demand, active team player
- **Experience in Selenium Web Driver using JAVA Language.**
- Strong Understanding of SDLC, STLC and role of a test engineer
- Strong Understanding of software testing techniques and tools
- Strong Understanding of Test design, Test execution, and defect life cycle
- Good Knowledge of **GIT, JIRA,TestNg**
- Good Knowledge of handling **popup,iframe,windows,drop down** etc.
- Good Knowledge of **X-path.**
- Good knowledge of **data Driven framework**

- Good knowledge of oops concept, collection framework, Array, String in java
- Good exposure and knowledge of REST API Testing using Postman
- Good hands-on technical skill
- SQL understanding for data validation and verification
- Good data analysis skills resulting in timely decision making
- Report software defects in a detailed and efficient manner
Expertise in bug tracking process using bug tracking tool JIRA.
- Very good experience in Analysing requirements
- Good experience in Java OOPs concepts.
- Good experience in Test Automation using selenium web driver (Java).
- Good experience in API testing manual
- Open to learn and teach new concepts technologies.
- Knowledge of automation frameworks
- Proven Experience in test automation. Experience in Selenium WebDriver automation tool
- Good analytical and problem-solving skills
- Expertise in Defect Life Cycle / Bug Life Cycle.
- Implemented Agile Methodology process in the project.
- Participate in scrum meeting to discuss about project progress report every day.
- Good experience in analyzing the User stories in Sprint Backlog.
- Experience in Sanity Testing and Functional Testing.
- Knowledge in database testing on manual techniques.
- Performed different types of testing like Functional testing, Regression Testing, Retesting.
- Experience in working on TestNG framework.

- Extensive testing experience with Web Based Application.
- Knowledge of standard QA processes, test case design, test case management, Defect management and reporting.
- Very Good understanding of **Software Development Life Cycle (SDLC)**.
- Excellent understanding of **Defect Life Cycle**.
- Executed test scripts on **Firefox** and **Google chrome**.
- Good knowledge in **Re-testing** and defects fixed by developer.
- Knowledge in Test design techniques like Equivalence Class Partitioning and Boundary value analysis.
- Good understanding in **JAVA, OOPs** Concept.
- Good knowledge in **Software Testing Life Cycle (STLC)**.
- Knowledge in **agile model**.
- Experience in preparation of Test cases and executing the same.
- Excellent experience working in an agile/scrum environment
- Experience on Regression Testing

TECHNICAL COMPETENCIES

- | | |
|------------------------|------------------|
| • Operating Systems:=> | windows 10, Unix |
| • Languages:=> | SQL, Core Java |
| • Database :=> | Oracle |

- Software Testing Skills:=> Automation testing, Functional testing, and Database testing.

PROFESSIONAL WORK EXPERIENCE

- Working as a Software Test Engineer in Xento systems Pune from July 2019 to till date.

EDUCATIONS

M.Sc(computer) from North Maharashtra university Jalgaon

PROJECTS

Project: 1

| | |
|----------------------------------|--|
| Project Name:=> | Gryphon Partners leverages |
| Domain:=> | Banking and Finance (Capital Market) |
| Testing Methodology:=> | Automation Testing, Manual testing, Database Testing |

Responsibilities

- Understanding and complying of/ to Informatics practices
- Assist in creating test summary reports of high quality, written language and content.
- Become a user expert on how our products work, gaining an understanding of the strengths and weaknesses.
- Active participation in weekly/daily status calls with the client.

- Create and execute test cases
- Cross Browser Testing.
- Requirement Analysis: Understanding the requirements and communicating with BA team for better understanding of the requirements.
- Validation of Expected output vs Actual Output in respective logs files using
UNIX.
- Validation of Expected output vs Actual output in respective database tables
Using SQL.
- Regression Testing using Automation

- Effectively communicate status, metrics, and issues on a regular basis.

Project 2:

Project Name : OSS360

Domain : Telecom Domain(CRM)

Testing Methodology : Manual testing, Functional Testing, Database Testing

Responsibilities

- Involved in review test case and send review comments to colleagues.
- Contribute in testing process improvement activities as needed.
- Participate in Requirements and Functional Specifications reviews of new features and verify these requirements are reflected in the test specifications
- Responsible for tracking issues and resolutions throughout the testing process.
- Understand the FRS document and analyse the requirement.
- Prepare the test case from use case
- Execute the test case to validate customer requirement

- Create and execute test cases, manage bugs and report testing status to project teams.

PERSONAL DETAILS

- **Date of Birth:** 9/9/1991
- **Present Address:** Moshi Alandi BRT Road Pimpri Chichwad
Moshi D1=1104 Kesar Tree Town pune

Language known: English,Marathi,Hindi.
